

HRPZ SERIES BRASS FITTINGS

PU HOSE FIELD REPAIRABLE FITTINGS

Interstate Pneumatic PU Hose Reusable Fittings are available as swivel / non swivel solid style. Swivel fittings are specially designed to work on HR Recoil & PU Polyurethane series hoses. Fittings may work with other brands as well (We have been told PU Hose from Coil Hose™, Hitachi™, Bostitch™, etc. can use our fittings).

All fittings are field repairable styles. That is, you can cut and repair that same hose within minutes, using a couple of wrenches or pliers.

HRPZ24 Series indicates 1/4" - HRPZ26 Series indicates 3/8"
